# MILES per GALLON

When you figure miles per gaffon, there is no gasoline as cheap and efficient as SOCONY. Because SOCONY is not only pure and powerful, but uniform.

Every gallon is like every other gallon, no matter where you buy it -quick starting and check full of energy. The SOCONY seal means that the gasoline it marks is the best that extensive sources of supply and highly scientific refining can produce.

SOCONY is so different from the inert mixtures that are often sold as gasoline that it pays to be particular what goes into your tank. Say "So-CO-ny" and look for the Red, White and Blue SOCONY
